Consumption Cured. An old physician, retired from active practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure of consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having thoroughly tested its wonderful curative powers in thousands of cases, feels it his duty to make it known to his suffering fellows. Actuated by this motive, and a conscientious desire to relieve human suffering, he will send (free of charge) to all who desire

it, this recipe, with full directions for prepar-

ing and successfully using. Sent by return mail by addressing, with stamp, naming this paper,

Few remedies are applicable to such a wide range of disorders as Hostetter's Stomach Bitters, and this not because it has special properties adapted to the cure of each-such pretence would be manifestly absurd-but on account of its wonderfully improving effect upon the general tone of the system, and its alterative action upon the organs of nutrition, secretion and discharge. Besides its well known properties as a remedy for intermittent and remittent fevers, dysp psia, constipation, torpidity of the liver, general debil-ity, urinary and uterine difficulties, it invali-ably proves to be highly serviceable in over-coming anoemia, hypochrondria, rheumatism, insomnia, and many other disorders and dis-abilities originating in poverty or impurity of the blood, nervous weakness or over-excite-ment, or an imperfect performance of the physical functions-

It is just what a good physician would prescribe for these complaints, and we confidentially recommend it as being the best article now in use. Rev. J. B. Gray will hold Episcopal service in Santa Monica next Sunday morning, at 11 o'clock, in Roger's Hall. Messrs. Lucas Brothers will start a header through three hundred acres

of barley, near town, in a day or two. It is an excellent crop, and he expects a large yield. Three new residences are approaching completion. Mr. Judson's and Judge O'Melveny's, on Nevada aven-

tains. If no bad luck intervenes, Ocean Avenue will at no distant day present a very handsome appearance. A line of gum and pepper trees have been planted along it, placed alternately, the entire length of the avenue.

Preparations for the accommodation of visitors and campers at Old Santa Monica have progressed considerably during the past week. The bath house is completed; two correls have been established and amply provided with feed; and Messrs. Duncan and Maraharty have arranged a rustic saloon and a large, smooth platform for dancing under the wide-spreading boughs

of a giant sycamore. The following are the shipments since our last report: Received per steamer Senator, 200 tons general merchandise; shipped per same, 35 tons, consisting of household goods, ore, lemons, wine, honey, etc. Received per steamer Los Angeles, 130 tons general merchandise; shipped per same,25 tons iron, household goods honey, wine, etc. Passengers per Senator, 80 coming and 40 going; per Los Angeles, 70 coming and 35 going. Female Fortitude. A singular case has been developed at the Maryland University Hospital. A young woman of intelligence and respectably connected, who has been treated for an incurable abdominal affection, requested that after her death her body be dissected for the benefit of science. In a letter to Resident Physician Ashby, she says: "As my death must speedily result from causes which have bafflled science and confused the best medical minds, I desire that you shall perform upon my body, after death, an examination, and ascertain what it is that has terminated my life. I request that such examination shall be made privately and respectfully by yourself and a few of your medical students and medical friends. I have furthermore urged my parents to allow such an examination, and to inform you at once as to my death, in case of such an event, since I shall go to my home from the Hospital to pass the remainder of my days. A post mortem examination can do me no possible harm, and it may benefit science, and through it some other unfortunate affected like myself. Moreover, I desire in this manner to express the gratitude I feel to the many medical men who have labored for my relief. Lastly; it is a duty I owe to my sex and my God."
She will leave the Hospital and return home in the city, and in the event of her death her request will be

complied with by the physicians named in her will.

Mr. Peduncle and His Cow. Mr. Peduncle went out to milk, the other day. Now, if there is one thing Mr. Peduncle prides himself upon, it is his perfect command of a cow. With his bucket on the ground he milks with both hands and sings meanwhile, occasionally bestowing a word of warning upon the cow if she whisks her tail onhim or tries to scratch her back with her hind foot. On this occasion he had nearly finished, and was singing cheerfully:
"My soul (so, now) be on thy guard,
What in the Egyptian sand-hills ails

"Ten thousand (thunder and borax! stand stil!) foes arise"-And as Mr. Peduncle raised himself up from the barn floor and wiped the milk out of his ears and nose, he saw up in the loft the wife of his bosom with a long switch in which she had been tickling the gentle animal's nose, and she said in an awful voice: "Oliver Peduncle, I reckon you'll wrap your old tobacco box again next Sunday, won't ye? and have me take it to church and sling it out on the

It was a negro prayer-meeting at Chicago where the elder who conduct-

And it was uncouth, for he outdid Lorenzo Dow's famous quotation "He maketh my feet like hen's feet" by decrying the hypocrisy of those who accused their neighbors of having "beans" in their eyes, but paid no regard te "dem oats" in their own. "Fer de Lord," ran the refrain of his oration, "de Lord shall come wid great majesty an' power in de mawning—in de mawning." As if His coming in the mowning had a greater significance Established for Years, and would possess a greater terror than it would if it had occurred in the than it would if it had occurred in the afternoon or at night. Just in front sat a great hulking truckman, one of the impertinent, but who nevertheless melted slowly under the preacher's appeals and the contagious enthusiasm around him. Anxiety, doubt, despair, hope, resolve flitted across his working features, till finally he rose with a sigh of determination and stepped to the anxious seat, with the half-sullen, half-ferocious remark, "Lord, I'se wid ye."—Ex.

The monument is to be composed of Scotch granite, and will be ornamented with nine statues, which will be life size, and will embrace a Continental soldier, hope, faith, religion, etc.

Yesterday at the Centennial the weather was good and the attendance at the buildings was larger than heretofore.

A London dispatch states that the steamer Pandora, which last year made a voyage to the Arctic regions in charge of Allen Young for the purpose of discovering further memorials of Sir John Franklin, has refitted for another voyage to Smith's Sound, to bring to England any dispatches which may be deposited there by Captain Howe's Arctic expedition. The regular Republican State convention assembled at Montgomery, Alabama, yesterday. It was the largest body that has assembled in the State since 1867. Hon R T Heften was elected chairman and 100 delegates were present, representing all but a few counties. The convention after appointing the usual committees adjourned.

By private telegram we learn that the 4th Congressional Convention last evening nominated Hon P. D. WIGGINTON for reelection. Our townsman S. D. Mott was elected a delegate to the National convention.

AGAIN SIMON says "thumbs up." The old Republican war-horse is again at the front. As long as there is a breath of life in the venerable gentleman he will keep his party busy, and when he says so, the thumbs will go down. Old CAMERON has captured the Pennsylvania Republicans beyond a doubt. He is a success, and his influence will be felt materially in the National Convention. Indeed he will mould its temper and in a great degree direct its action.

Some of our contemporaries at the East are complaining that the centennial will not be a paying institution; that the expenses are far in excess of the income, and that at its close the buildings will be held for a heavy indebtedness. The recent cloud has in a measure been dispelled by a temporary peace, but to a certainty the cross will be the standard of religious faith in Eastern Europe ere many generations have come and gone. Fortunately there was scarcely a breath of air stirring to urge the conflagration beyond the bounds of its origin. The location was one of the most dangerous in the city, as the streets on either side were lined with frome buildings which had been bleached and dried by the elements, for many years back and were nothing less than enlarge TINDER BC TIN

THE ORIGIN Of the fire was in some of the ou buildings behind McDonald's Board ing house, on Commercial street. One report assigned it to the stable of Close & Lassen, while another asserted as positively that it started in the kitchen of Dominge Garcia, in the rear of that gentleman's saddle and harness establishment. Whether it was the work of an incendiary or no will be hard to determine; in the gen Co's office for a destitute woman who eral confusion that existed last nic it was impossible to form even a con jecture.

Once kindled found abundant mate. al for its ramifications, and by the time the alarm bell was rung two or three stables, sheds, fences, etc., besides the kitchen in the rear of Garcia's saddle shop were wrapped in flames. The Fire Companies were both on the ground in good time, and went to work with a will; so much so that the fire was checked within these limits, hardly making a foot advance from the time the onslaught commenced.

The Anti-Chinese Movement.

The following petition has been extensively circulated in the city and, as we are informed, not over a half dozen have refused to sign it when approached on the subject:

To Hon. A. A. Sargent, Newton Booth, Senators; J. K. Luttrell, H. F. Page, P. D. Wigginton, Wm. A. Piper, Representatives:

GENTLEMEN.—The undersigned citi-zens, voter and tax-payers, appreciating the efforts made by you to relieve us of the curse of the presence of Chinese in our midst, ask your further en-deavor to procure the abrogation or modification of the Burlingame treaty as speedily as possible. None know better than yourselves the necessity of such an effort. The virtue of our families demand such an effort. We recognize the movement you have already made as a step in the right direction, and desire you to still labor until the desired object is obtained. This memorial is not sent to you as a partisan movement, but comes from us as citizens. We ask this as a mat-ter of right and know no party in the matter. The Chinese curse is blighting the prospects of our youth, retarding the development of our country, and taking from our social being the very essence of its vitality—the manhood of the present and future generations. As our Representatives we ask of you for the aid that the emergency demands, and promise you our cor-dial support in your effort.

Yesterday at 4 o'clock A. M. a fire was discovered in Wilson's farniture factory at Wilmington and totally destroyed it. The loss is estimated at \$7,000, on which there is some insurance. It is believed to be the work of an incendiary.
